

## **NEW LOCAL PLAN EVIDENCE BASE: SOUTH ESSEX GYPSY AND TRAVELLER ACCOMMODATION ASSESSMENT (SEGTA) UPDATE 2019**

### **1 PURPOSE OF REPORT**

- 1.1 The Council is at the early stages of reviewing its adopted local development plan policies. To inform this review, the Council has supported the preparation of a common evidence base with other Essex authorities to inform cross-boundary co-operation. An Essex-wide Gypsy and Traveller Accommodation Assessment (GTAA) was prepared in 2017, which provided evidence on needs up to 2033. A further update, the South Essex Gypsy and Traveller Accommodation Assessment (SEGTA), specifically for the six South Essex authorities, was commissioned to update the needs assessment to 2038 to align with the plan period of the South Essex Joint Strategic Plan. This report explains the key findings for this piece of evidence, as well as the implications for Rochford District's plan-making.

### **2 INTRODUCTION**

#### **National Policy**

- 2.1 The Planning Policy for Traveller Sites (PPTS) 2015 sets out national policy for Gypsies, Travellers and Travelling Show People. The PPTS requires Local Planning Authorities through the plan-making process to develop evidence which assesses the need for sites, including transit sites. Policy B sets out that, in the preparation of their Local Plans, local planning authorities should:-
- a) identify and update annually, a supply of specific deliverable sites sufficient to provide 5 years' worth of sites against their locally set targets;
  - b) identify a supply of specific, developable sites, or broad locations for growth, for years 6 to 10 and, where possible, for years 11-15;
  - c) consider production of joint development plans that set targets on a cross-authority basis, to provide more flexibility in identifying sites, particularly if a local planning authority has special or strict planning constraints across its area (local planning authorities have a duty to co-operate on planning issues that cross administrative boundaries);
  - d) relate the number of pitches or plots to the circumstances of the specific size and location of the site and the surrounding population's size and density; and
  - e) protect local amenity and environment.
- 2.2 The PPTS was first published in 2012 alongside the National Planning Policy Framework (NPPF) and was subsequently updated in 2015. The update to the

PPTS included a change to the definition of Travellers for planning purposes, which included the removal of the term ‘persons... who have ceased to travel permanently’, meaning that those who have ceased to travel permanently now do not fall under the planning definition of a Traveller for the purposes of assessing their need within a GTAA. The Council is still obliged to plan for the accommodation needs of these households as part of its wider housing strategy.

### **South Essex Plan-Making**

- 2.3 The Essex authorities have a long history of working together to assess the needs for Gypsy and Traveller sites in the county. The most recent Gypsy and Traveller Accommodation Assessment (GTAA) covering Essex was published in 2017, following the change in definition within the PPTS. This GTAA projected the travelling community’s needs for pitches up to 2033.
- 2.4 In 2017, the South Essex authorities (Basildon, Brentwood, Castle Point, Southend, and Thurrock Borough Councils, alongside Rochford District Council) formed the Association of South Essex Local Authorities (ASELA) to work towards, and deliver, a more joined up approach to managing growth challenges and opportunities over the next 30 years. As part of this, the six authorities and Essex County Council are in the process of preparing a South Essex Joint Strategic Plan, under the Duty to Co-operate, to deliver a proactive and effective strategy to address growth up to 2038.
- 2.5 Consultants, Opinion Research Services (ORS), were commissioned by the South Essex authorities to undertake an update to the 2017 GTAA. Specifically for Rochford District, the baseline was updated to take account of changes since ORS conducted interviews with the local traveller community (between January and November 2016). The primary justification for this was the unforeseen siting of two unauthorised travellers sites, which were not included in the 2017 assessment. These would have a proportionate impact on the overall need for pitches up to 2038, given the historically low number of pitches in the district. The main amendments to the baseline include:
- Land south of Woodville, Hullbridge Road, Rayleigh (15/00448/FUL) – awarded a 5 year temporary consent on appeal
  - Land opposite 2 Goldsmith Drive, Rayleigh (17/01240/FUL) – discounted in the 2017 GTAA due to the site being vacant, now occupied with refused application being appealed
  - Land Adjacent St Theresa, Pudsey Hall Lane, Canewdon (18/00318/FUL) – occupied with refused application being appealed
- 2.6 This update identifies a need for additional pitches between 2016 and 2038 as follows:

- 18 additional pitches for households that meet the planning definition. This is made up of 5 unauthorised pitches, 1 temporary pitch, 2 concealed or doubled-up households or adults, 5 teenagers in need of a pitch of their own in the next 5 years, and new household formation of 5 using a rate of 1.00% derived from the household demographics;
- 3 additional pitches for unknown households. This is made up of 1 unauthorised pitch, 1 pitch with temporary planning permission and new household formation of 1 from a maximum of 2 households; and
- 11 additional pitches for households that do not meet the planning definition. This is made up of 7 unauthorised pitches, 1 concealed or doubled-up household or adults, and new household formation of 3 using a formation rate of 1.10% derived from the household demographics.

2.7 In terms of the need to maintaining a five year supply, this translates into the following need:

Years	0-5	6-10	11-15	16-20	21-22	Total
	2016-21	2021-26	2026-31	2031-36	2036-38	
Meet the definition	14	1	1	1	1	18
Unknown households	2	0	1	0	0	3
Do not meet the definition	9	0	1	1	0	11

2.8 The findings for South Essex as a whole identify an overall need of 95 pitches for households that meet the planning definition, up to 125 pitches for unknown households and 187 pitches for households that do not meet the planning definition (2016 – 2038).

2.9 This update did not identify any future need for Travelling Showpeople plots in the District; however some demand was identified in neighbouring authority areas.

### **Implications of the South Essex GTAA 2019**

2.10 The SEGTA 2019 has been used to inform the preparation of a Gypsy and Traveller Issues Paper which will be considered as a separate agenda item at the 31 January 2019 meeting of the Planning Policy Sub-Committee.

- 2.11 This update also serves as an up to date source of evidence on both existing supply and future demand for Gypsy and Traveller pitches both in the District and across South Essex as a whole. It will be used to inform the Council's policy approach through the new Local Plan and any strategic approach taken through the South Essex Joint Strategic Plan.

### **3 RISK IMPLICATIONS**

- 3.1 Planning policy – whether at the local or strategic level – must be based on adequate, up-to-date and relevant evidence about the economic, social and environmental characteristics and prospects of the area they cover.
- 3.2 The South Essex GTAA 2019 will set out the evidenced need for Gypsy and Traveller pitches in South Essex. This evidence is important to ensure that the Councils can clearly demonstrate, at the independent examination stage of the South Essex Joint Strategic Plan, justification for the draft policies covering Gypsy and Traveller needs.

### **4 ENVIRONMENTAL IMPLICATIONS**

- 4.1 Policies within emerging plans – whether at the local or strategic level – could have environmental implications particularly if new development is proposed. Any environmental implications will need to be considered at each stage of plan making; such consideration will be informed by Sustainability Appraisal to ensure the most sustainable options are identified.

### **5 RESOURCE IMPLICATIONS**

- 5.1 The Council is required to prepare a Plan in accordance with the requirements of national planning policy to address relevant planning issues, including Gypsy and Traveller site provision. Any further outputs, such as GTAA updates, will need to be met from investments in the existing budget provision.

### **6 LEGAL IMPLICATIONS**

- 6.1 The Localism Act 2011 requires Rochford District Council to co-operate and work with other prescribed bodies as part of the Duty to Co-operate on strategic cross boundary issues which includes, amongst other matters, provision for Gypsy and Traveller sites. Failure to do so could risk a submitted plan (whether at the local or strategic level) not meeting the Duty to Co-operate provisions set out in the Act and/or the tests of soundness at the examination stage.

### **7 EQUALITY AND DIVERSITY IMPLICATIONS**

- 7.1 An Equality Impact Assessment has not been completed as no decision is being made.

**8 RECOMMENDATION**

**8.1 It is proposed that the Sub-Committee RESOLVES**

That the South Essex GTAA update 2019, attached at Appendix A, be noted as evidence and published on the Council's website.

Shaun Scrutton

# 1. Introduction

- <sup>1.1</sup> In January 2018 six local authorities that make up South Essex (Basildon, Brentwood, Castle Point, Rochford, Southend-on-Sea and Thurrock), together with Essex County Council, signed a Memorandum of Understanding that established the Association of South Essex Local Authorities (ASELA) and committed the authorities to a programme of joint strategic working including the preparation of a new Joint Strategic Plan.
- <sup>1.2</sup> In January 2018 Opinion Research Services (ORS) completed updated Gypsy and Traveller Accommodation Assessments (GTAA's) covering the local authorities that now make up the ASELA.
- <sup>1.3</sup> All the assessments of need were completed following the same methodology and this is set out in the Essex GTAA Joint Methodology Report. An individual GTAA Need Summary Report was prepared for each local authority<sup>1</sup> and in addition in Basildon, where the GTAA was a separate commission from ORS, a full report was prepared.
- <sup>1.4</sup> Following the establishment of the ASELA, Officers approached ORS requesting that the GTAA's for the South Essex authorities be updated to 2038 in line with the proposed time period for the Joint Strategic Plan, as well as addressing a small number of new planning applications that were permitted around the time of the previous GTAA's.
- <sup>1.5</sup> The purpose of this report is to set out the updated GTAA outcomes for Basildon, Brentwood, Castle Point, Rochford, Southend-on-Sea and Thurrock covering the new time period 2016-2038. This has been done by projecting new household formation forward from 2033-38.
- <sup>1.6</sup> In addition, there were a number of planning applications determined in Rochford and the site baseline has been adjusted accordingly:
- There was a successful appeal in Rochford resulting in a 5-year temporary planning permission for 1 pitch. This site is currently under construction and the demographics of the occupiers were determined from the appeal documentation.
  - A retrospective application for 2 pitches was refused and the demographics of the occupiers was determined from the planning application documents.
  - Another retrospective application for 2 pitches was refused and the demographics of the occupiers was determined from the planning application documents.
- <sup>1.7</sup> The primary objective of the GTAA Update is to provide a robust revised assessment of current and future need for Gypsy, Traveller and Travelling Showpeople accommodation in South Essex for the period 2016-2038. The study will provide an evidence base to enable the Councils to assess and meet the needs of the Travelling Community as well as complying with their requirements towards Gypsies, Travellers and

---

<sup>1</sup> Whilst no Gypsies, Travellers or Travelling Showpeople were identified in Southend-on-Sea, a Need Summary Report has still been prepared.

Travelling Showpeople under the Housing Act 1985, the revised National Planning Policy Framework (NPPF) 2018, Planning Practice Guidance (PPG) 2014, PPTS (2015), and the Housing and Planning Act 2016.

- <sup>1.8</sup> The baseline date for the study is **September 2016**.

## Definitions

- <sup>1.9</sup> The current planning definition for a Gypsy, Traveller or Travelling Showperson is set out in PPTS (2015). The previous housing definition set out in the Housing Act (2004) was repealed by the Housing and Planning Act (2016).

## The Planning Definition in PPTS (2015)

- <sup>1.10</sup> For the purposes of the planning system, the definition was changed in PPTS (2015). The planning definition is set out in Annex 1 and states that:

- For the purposes of this planning policy “gypsies and travellers” means:
- Persons of nomadic habit of life whatever their race or origin, including such persons who on grounds only of their own or their family’s or dependants’ educational or health needs or old age have ceased to travel temporarily, but excluding members of an organised group of travelling showpeople or circus people travelling together as such.
- In determining whether persons are “gypsies and travellers” for the purposes of this planning policy, consideration should be given to the following issues amongst other relevant matters:
  - a) Whether they previously led a nomadic habit of life.
  - b) The reasons for ceasing their nomadic habit of life.
  - c) Whether there is an intention of living a nomadic habit of life in the future, and if so, how soon and in what circumstances.
- For the purposes of this planning policy, “travelling showpeople” means:
- Members of a group organised for the purposes of holding fairs, circuses or shows (whether or not travelling together as such). This includes such persons who on the grounds of their own or their family’s or dependants’ more localised pattern of trading, educational or health needs or old age have ceased to travel temporarily, but excludes Gypsies and Travellers as defined above.

(Planning Policy for Traveller Sites, Department for Communities and Local Government (DCLG), August 2015)

- <sup>1.11</sup> The key change that was made to both definitions was the removal of the term persons...*who have ceased to travel permanently*, meaning that those who have ceased to travel permanently will no longer fall under the planning definition of a Traveller for the purposes of assessing accommodation need in a GTAA.

## Definition of Travelling

- <sup>1.12</sup> One of the most important questions that GTAA's need to address in terms of applying the planning definition is *what constitutes travelling?* This has been determined through case law that has tested the meaning of the term '*nomadic*'.
- <sup>1.13</sup> **R v South Hams District Council (1994)** – defined Gypsies as “persons who wander or travel for the purpose of making or seeking their livelihood (not persons who travel from place to place without any connection between their movements and their means of livelihood.)” This includes ‘born’ Gypsies and Travellers as well as ‘elective’ Travellers such as New Age Travellers.
- <sup>1.14</sup> In **Maidstone BC v Secretary of State for the Environment and Dunn (2006)**, it was held that a Romany Gypsy who bred horses and travelled to horse fairs at Appleby, Stow-in-the-Wold and the New Forest, where he bought and sold horses, and who remained away from his permanent site for up to two months of the year, at least partly in connection with this traditional Gypsy activity, was entitled to be accorded Gypsy status.
- <sup>1.15</sup> In **Greenwich LBC v Powell (1989)**, Lord Bridge of Harwich stated that a person could be a statutory Gypsy if he led a nomadic way of life only seasonally.
- <sup>1.16</sup> The definition was widened further by the decision in **R v Shropshire CC ex p Bungay (1990)**. The case concerned a Gypsy family that had not travelled for some 15 years in order to care for its elderly and infirm parents. An aggrieved resident living in the area of the family's recently approved Gypsy site sought judicial review of the local authority's decision to accept that the family had retained their Gypsy status even though they had not travelled for some considerable time. Dismissing the claim, the judge held that a person could remain a Gypsy even if he or she did not travel, provided that their nomadism was held in abeyance and not abandoned.
- <sup>1.17</sup> That point was revisited in the case of **Hearne v National Assembly for Wales (1999)**, where a traditional Gypsy was held not to be a Gypsy for the purposes of planning law as he had stated that he intended to abandon his nomadic habit of life, lived in a permanent dwelling and was taking a course that led to permanent employment.
- <sup>1.18</sup> **Wrexham County Borough Council v National Assembly of Wales and Others (2003)** determined that households and individuals could continue to lead a nomadic way of life with a permanent base from which they set out from and return to.
- <sup>1.19</sup> The implication of these rulings in terms of applying the planning definition is that it will **only include those who travel (or have ceased to travel temporarily) for work purposes, or for seeking work, and in doing so stay away from their usual place of residence**. It can include those who have a permanent site or place of residence, but that it will not include those who travel for purposes other than work – such as visiting friends or relatives. It will not cover those who commute to work daily from a permanent place of residence.
- <sup>1.20</sup> It may also be that within a household some family members travel for work purposes on a regular basis, but other family members stay at home to look after children in education, or other dependents with health problems etc. In these circumstances the household unit is defined as travelling under the planning definition.

<sup>1.21</sup> Households will also fall under the planning definition if they can demonstrate that they have ceased to travel temporarily as a result of their own or their family's or dependants' educational, health needs or old age. In order to have ceased to travel temporarily these households will need to demonstrate that they have travelled for work in the past and that they plan to travel again for work in the future.

<sup>1.22</sup> This approach was endorsed by a Planning Inspector in Decision Notice for an appeal in East Hertfordshire (Appeal Ref: APP/J1915/W/16/3145267) that was issued in December 2016. A summary can be seen below.

*Case law, including the R v South Hams District Council ex parte Gibb (1994) judgment referred to me at the hearing, despite its reference to 'purposive activities including work' also refers to a connection between the travelling and the means of livelihood, that is, an economic purpose. In this regard, there is no economic purpose... This situation is no different from that of many landlords and property investors or indeed anyone travelling to work in a fixed, pre-arranged location. In this regard there is not an essential connection between wandering and work... Whilst there does appear to be some connection between the travel and the work in this regard, it seems to me that these periods of travel for economic purposes are very short, amounting to an extremely small proportion of his time and income. Furthermore, the work is not carried out in a nomadic manner because it seems likely that it is done by appointment... I conclude, therefore, that XX does not meet the definition of a gypsy and traveller in terms of planning policy because there is insufficient evidence that he is currently a person of a nomadic habit of life.*

<sup>1.23</sup> This was further reinforced in a more recent Decision Notice for an appeal in Norfolk that was issued in February 2018 (Ref: APP/V2635/W/17/3180533) that stated:

*As discussed during the hearing, although the PPTS does not spell this [the planning definition] out, it has been established in case law (R v South Hams DC 1994) that the nomadism must have an economic purpose. In other words, gypsies and travellers wander of travel for the purposes of making or seeking their livelihood.*

## Legislation and Guidance for Gypsies and Travellers

<sup>1.24</sup> Decision-making for policy concerning Gypsies, Travellers and Travelling Showpeople sits within a complex legislative and national policy framework and this study must be viewed in the context of this legislation and guidance. For example, the following key pieces of legislation and guidance are relevant when developing policies relating to Gypsies, Travellers and Travelling Showpeople:

- The Housing and Planning Act, 2016
- Planning Policy for Traveller Sites (PPTS), 2015
- National Planning Policy Framework (NPPF), 2018
- Planning Practice Guidance<sup>2</sup> (PPG), 2014

<sup>1.25</sup> The primary guidance for undertaking the assessment of housing need for Gypsies, Travellers and Travelling Showpeople is set out in PPTS (2015). It should be read in conjunction with the National Planning Policy Framework (NPPF). In addition, the Housing and Planning Act (2016) makes provisions for the assessment

---

<sup>2</sup>With particular reference to the sections on Housing and Economic Development Needs Assessments.

of need for those Gypsy, Traveller and Travelling Showpeople households living on sites and yards who do not meet the planning definition – as part of the wider assessment of all households living in caravans and on houseboats.

## Planning Policy for Traveller Sites (2015)

<sup>1.26</sup> PPTS (2015), sets out the direction of Government policy. As well as introducing a revised planning definition of a Traveller, PPTS is closely linked to the NPPF. Among other objectives, the aims of the policy in respect of Traveller sites are (PPTS Paragraph 4):

- Local planning authorities should make their own assessment of need for the purposes of planning.
- To ensure that local planning authorities, working collaboratively, develop fair and effective strategies to meet need through the identification of land for sites.
- To encourage local planning authorities to plan for sites over a reasonable timescale.
- That plan-making and decision-taking should protect Green Belt from inappropriate development.
- To promote more private Traveller site provision while recognising that there will always be those Travellers who cannot provide their own sites.
- That plan-making and decision-taking should aim to reduce the number of unauthorised developments and encampments and make enforcement more effective.
- For local planning authorities to ensure that their Local Plan includes fair, realistic and inclusive policies.
- To increase the number of Traveller sites in appropriate locations with planning permission, to address under provision and maintain an appropriate level of supply.
- To reduce tensions between settled and Traveller communities in plan-making and planning decisions.
- To enable provision of suitable accommodation from which Travellers can access education, health, welfare and employment infrastructure.
- For local planning authorities to have due regard to the protection of local amenity and local environment.

<sup>1.27</sup> In practice, the document states that (PPTS Paragraph 9):

- Local planning authorities should set pitch targets for Gypsies and Travellers and plot targets for Travelling Showpeople, which address the likely permanent and transit site accommodation needs of Travellers in their area, working collaboratively with neighbouring local planning authorities.

<sup>1.28</sup> PPTS goes on to state (Paragraph 10) that in producing their Local Plan local planning authorities should:

- Identify and annually update a supply of specific deliverable sites sufficient to provide five years' worth of sites against their locally set targets.
- Identify a supply of specific, developable sites or broad locations for growth, for years 6-10 and, where possible, for years 11-15.

- Consider production of joint development plans that set targets on a cross-authority basis, to provide more flexibility in identifying sites, particularly if a local planning authority has special or strict planning constraints across its area (local planning authorities have a Duty-to-Cooperate on strategic planning issues that cross administrative boundaries).
- Relate the number of pitches or plots to the circumstances of the specific size and location of the site and the surrounding population's size and density.
- Protect local amenity and environment.

<sup>1.29</sup> Local Authorities now have a duty to ensure a 5-year land supply to meet the identified needs for Traveller sites. However, 'Planning Policy for Traveller Sites' also notes in Paragraph 11 that:

- Where there is no identified need, criteria-based policies should be included to provide a basis for decisions in case applications nevertheless come forward. Criteria-based policies should be fair and should facilitate the traditional and nomadic life of Travellers, while respecting the interests of the settled community.

## Revised National Planning Policy Framework (2018)

<sup>1.30</sup> The revised National Planning Policy Framework was issued in July 2018. Paragraph 60 of the revised NPPF sets out that in determining the minimum number of homes needed, strategic plans should be based upon a local housing need assessment conducted using the standard method in national planning guidance.

<sup>1.31</sup> Paragraph 61 then states that '*Within this context, the size, type and tenure of housing needed for different groups in the community should be assessed and reflected in planning policies (including, but not limited to, those who require affordable housing, families with children, older people, students, people with disabilities, service families, **travellers**, people who rent their homes and people wishing to commission or build their own homes*'. The footnote to this section states that '*Planning Policy for Traveller Sites sets out how travellers' housing needs should be assessed for those covered by the definition in Annex 1 of that document.*'

<sup>1.32</sup> This essentially sets out how the needs of households that are not found to meet the planning definition should be addressed.

## 2. Methodology

- 2.1 As part of the initial Essex-wide commission a Joint Methodology was prepared that was used to complete the GTAA's for local authorities in Essex, Southend-on-Sea and Thurrock. The Joint Methodology sets out the overall approach that was followed to complete the assessments of need and is a separate document to this report.
- 2.2 The Joint Methodology is based on the approach that ORS have been continually refining over the past 10 years for undertaking robust and defensible GTAA's. This has been updated in light of the introduction of the PPG in 2014, changes to PPTS in 2015 and the Housing and Planning Act (2016), as well as responding to changes set out by Planning Ministers, with particular reference to new household formation rates. This is an evolving methodology that has been adaptive to changes in planning policy as well as the outcomes of Local Plan Examinations and Planning Appeals.
- 2.3 PPTS (2015) contains a number of requirements for local authorities which must be addressed in any methodology. This includes the need to pay particular attention to early and effective community engagement with both settled and traveller communities (including discussing travellers' accommodation needs with travellers themselves); identification of permanent and transit site accommodation needs separately; working collaboratively with neighbouring local planning authorities; and establishing whether households fall within the planning definition for Gypsies, Travellers and Travelling Showpeople.
- 2.4 In summary this included the following key stages:
- » Desk-Based Review
  - » Stakeholder Engagement
  - » Working Collaboratively with Neighbouring Planning Authorities
  - » Survey of Travelling Communities
  - » Engagement with Bricks and Mortar Households
  - » Applying the PPTS Planning Definition
  - » Calculating Current and Future Need
  - » Transit Provision
  - » Final Outcomes
- 2.5 The approach is the same as that considered in April 2016 and July 2017 by the Planning Inspector for the Gloucester, Cheltenham and Tewkesbury Joint Core Strategy. She concluded in her final Examination Report that was published in October 2017:

*'The methodology behind this assessment incorporates a full demographic study of all occupied*

*itches, a comprehensive effort to undertake interviews with Gypsy and Traveller households, and consideration of the implications of the new national policy. I am satisfied that the GTAA provides a robust and credible evidence base and I accept its findings.'*

- <sup>2.6</sup> The ORS Methodology has also been found to be sound following Local Plan Examinations in Cambridge, Cotswold, East Hertfordshire, Maldon, Newham and South Cambridgeshire.
- <sup>2.7</sup> In preparing this GTAA Update ORS have adjusted the site baseline for Rochford and rolled forward new household formation for the period 2033-38 in Brentwood, Castle Point, Rochford, Southend-on-Sea and Thurrock, and for the period 2034-38 in Basildon.

## 3. Key Findings

### Gypsy and Traveller Sites and Travelling Showpeople Yards

- 3.1 Overall the assessments identified a total of 423 Gypsy and Traveller pitches on 156 sites and a total of 119 Travelling Showpeople plots on 12 yards in South Essex. The table below gives a breakdown by local authority and a full breakdown of sites and yards by planning status can be found in **Appendix A**.

Figure 1 – Breakdown of sites and yards by local authority

Local Authority	Gypsies and Travellers		Travelling Showpeople	
	Sites	Pitches	Yards	Plots
Basildon	102	206	1	2
Brentwood	20	55	0	0
Castle Point	2	7	0	0
Rochford	14	24	0	0
Southend-on-Sea	0	0	0	0
Thurrock	18	131	2	8
Thurrock - Buckles Lane	0	0	9	109
<b>TOTAL – SOUTH ESSEX</b>	<b>156</b>	<b>423</b>	<b>12</b>	<b>119</b>

### Household Interviews – Gypsies and Travellers

- 3.2 A total of 197 interviews were completed with Gypsies and Travellers in South Essex. The reasons for not completing interviews with Gypsies and Travellers in South Essex included households not being present during the fieldwork period; refusal to be interviewed; pitches not occupied by Gypsies or Travellers; vacant pitches; and unimplemented pitches.
- 3.3 Overall this represents an adjusted response rate<sup>3</sup> of 54% for South Essex, with individual response rates ranging from 92% in Rochford to 29% in Castle Point.

Figure 2 – Breakdown of household interview response rates for Gypsies and Travellers

Local Authority	Occupied Pitches	Interviews	Response Rate
Basildon	163	81	50%
Brentwood	54	41	76%
Castle Point	7	2	29%
Rochford <sup>4</sup>	24	22	92%

<sup>3</sup> Baseline excludes pitches or plots that were vacant, unimplemented or not occupied by ethnic Gypsies, Travellers or Travelling Showpeople.

<sup>4</sup> Some demographic details were obtained from appeal and planning application documents.

Southend-on-Sea	0	0	-
Thurrock	118	51	43%
<b>TOTAL – SOUTH ESSEX</b>	<b>366</b>	<b>197</b>	<b>54%</b>

## Household Interviews – Travelling Showpeople

- 3.4 A total of 87 interviews were completed with Travelling Showpeople in South Essex. The reasons for not completing interviews with Travelling Showpeople in South Essex included households not being present during the fieldwork period; refusal to be interviewed; and plots not occupied by Travelling Showpeople.
- 3.5 Overall this represents an adjusted response rate of 89% for South Essex, with individual rates ranging from 100% in Basildon, down to 80% in Thurrock.

**Figure 3 – Breakdown of household interview response rates for Travelling Showpeople**

Local Authority	Occupied Plots	Interviews	Response Rate
Basildon	2	2	100%
Brentwood	0	0	-
Castle Point	0	0	-
Rochford	0	0	-

## Additional Pitch Needs – Gypsies and Travellers

- <sup>3.6</sup> The overall additional pitch needs for Gypsies and Travellers from 2016-2038 are set out for each local authority below. This breakdown also includes an overall summary for South Essex.
- <sup>3.7</sup> Additional needs are set out for those households that meet the planning definition of a Gypsy or Traveller; for those unknown households where an interview was not able to be completed (either due to households refusing to be interviewed, or not being present despite up to 3 visits to each site) who *may* meet the planning definition; and for those households that do not meet the planning definition (even though this is no longer a requirement for a GTAA).
- <sup>3.8</sup> Need arising from households that meet the planning definition should be addressed through site allocation/intensification/expansion policies as appropriate.
- <sup>3.9</sup> The Councils will need to carefully consider how to address the needs associated with unknown Travellers as it is unlikely that all this need will have to be addressed through the provision of conditioned Gypsy or Traveller pitches. In terms of Local Plan Policies, the Councils should consider the use of a criteria-based policy for any planning applications from unknown households or applications from households from outside of the study area (unknown in-migration).
- <sup>3.10</sup> In general terms, the need for those households who do not meet the planning definition will need to be addressed as part of general housing need and through separate Local Plan Policies (including any plans that have already been adopted, as all Travellers will have been included as part of the overall Objectively Assessed Need - OAN).
- <sup>3.11</sup> This approach is specifically referenced in the revised National Planning Policy Framework (July 2018). Paragraph 60 of the revised NPPF sets out that in determining the minimum number of homes needed, strategic plans should be based upon a local housing need assessment conducted using the standard method in national planning guidance. Paragraph 61 then states that *‘Within this context, the size, type and tenure of housing needed for different groups in the community should be assessed and reflected in planning policies (including, but not limited to, those who require affordable housing, families with children, older people, students, people with disabilities, service families, **travellers**, people who rent their homes and people wishing to commission or build their own homes’*. The footnote to this section states that *‘Planning Policy for Traveller Sites sets out how travellers’ housing needs should be assessed for those covered by the definition in Annex 1 of that document.’*

## Basildon

- 3.12 There were 27 Gypsy or Traveller households interviewed in Basildon that meet the planning definition, 83 unknown households that may meet the planning definition and 54 household that do not meet the planning definition. Overall identified need for the period 2016-2038 is for 53 additional pitches for households that meet the planning definition; for up to 66 additional pitches for unknown households that may meet the planning definition; and for 59 additional pitches for households that do not meet the planning definition. A detailed breakdown can be found below.

**Figure 4 – Additional need for Gypsy and Traveller households in Basildon 2016-2038**

Status	Total
Meet Planning Definition	<b>53</b>
Unknown	<b>0-66 (25% = 17)</b>
Do Not Meet Planning Definition	<b>59</b>

- 3.13 The GTAA identifies a need for **53 additional pitches** for households that meet the planning definition, and this is made up of 10 households on unauthorised pitches, 5 concealed or doubled-up households or adults, 13 teenage children in need of a pitch of their own in the next 5 years, and 26 from new household formation using a formation rate of 2.10% derived from the household demographics. There is also supply of 1 pitch on a public site due to be vacated by a household moving to another local authority area.

**Figure 5 – Additional need for Gypsy and Traveller households in Basildon that meet the Planning Definition (2016-38)**

	<b>32</b>	<b>5</b>	<b>6</b>	<b>7</b>	<b>3</b>	<b>53</b>

<sup>3.14</sup> The GTAA identifies a need for up to 66 additional pitches for unknown households and this is made up of 26 households on unauthorised pitches, 2 concealed or doubled-up households or adults, 5 households living on pitches with temporary planning permission, and new household formation of up to 33 from a maximum of 85 households. If the ORS national average<sup>5</sup> of 25% is applied this could result in a need for 17 additional pitches. If the locally derived proportion of 34% is applied this could result in a need for 22 additional pitches.

## Brentwood

- <sup>3.15</sup> There were 9 Gypsy or Traveller households interviewed in Brentwood that meet the planning definition, 16 unknown households that may meet the planning definition and 32 households that do not meet the planning definition. Overall identified need for the period 2016-2038 is for 12 additional pitches for households that meet the planning definition; for up to 9 additional pitches for unknown households that may meet the planning definition; and for 67 additional pitches for households that do not meet the planning definition. A detailed breakdown can be found below.

**Figure 11 – Additional need for Gypsy and Traveller households in Brentwood 2016-2038**

Status	Total
Meet Planning Definition	<b>12</b>
Unknown	<b>0-9 (25% = 2)</b>
Do Not Meet Planning Definition	<b>67</b>

- <sup>3.16</sup> The GTAA identified a need for **12 additional pitches** for households that meet the planning definition. This is made up of 2 unauthorised pitches, 3 concealed or doubled-up households or adults, 2 teenage children in need of a pitch of their own in the next 5 years, and 5 from new household formation using a rate of 1.40% derived from the household demographics.

## Thurrock

- 3.28 There were 8 Gypsy or Traveller households interviewed in Thurrock that meet the planning definition, 67 unknown households that may meet the planning definition and 43 households that do not meet the planning definition. Overall identified need for the period 2016-2038 is for 12 additional pitches for households that meet the planning definition; for up to 45 additional pitches for unknown households that may meet the planning definition; and for 45 additional pitches for households that do not meet the planning definition. A detailed breakdown can be found below.

**Figure 33 – Additional need for Gypsy and Traveller households in Thurrock 2016-2038**

Status	Total
Meet Planning Definition	12
Unknown	0-45 (25% = 11)
Do Not Meet Planning Definition	45

- 3.29 The GTAA identifies a need for **12 additional pitches** for households that meet the planning definition, and this is made up of 1 unauthorised pitch, 1 temporary pitch, 4 teenage children in need of a pitch of their own in the next 5 years, and new household formation of 6 using a rate of 2.00% derived from the demographics of the households.

**Figure 34 – Additional need for Gypsy and Traveller households in Thurrock that meet the Planning Definition (2016-38)**

Gypsies and Travellers - Meet Planning Definition	Pitches
<b>Supply of Pitches</b>

3.30 The GTAA identifies a need for up to 45 additional pitches for unknown households and this is made up of 13 unauthorised pitches, 6 pitches with temporary planning permission, and new household formation of 26 from a maximum of 65 households. If the ORS national average of 25% is applied this could result in a need for 11 additional pitches. If the locally derived proportion of 20% is applied this could result in a need for 9 additional pitches.

## Additional Plot Needs - Travelling Showpeople

- <sup>3.34</sup> The overall additional plot needs for Travelling Showpeople from 2016-2038 are set out below. This breakdown includes an overall summary for South Essex. It should be noted that the assessment of need for households living on the yards at Buckles Lane in Thurrock was the subject of a standalone report and has been reported separately in this Update Report. In addition, the baseline date for the Buckles Lane study was 2018.
- <sup>3.35</sup> Additional needs are set out for those households that meet the planning definition of a Travelling Showperson; for those unknown households where an interview was not able to be completed (either due to households refusing to be interviewed, or not being present despite 3 visits to each site) who may meet the planning definition; and for those households that do not meet the planning definition (even though this is no longer a requirement for a GTAA).

## Basildon

- 3.36 There were 2 Travelling Showperson households interviewed in Basildon that met the planning definition, no unknown households that may meet the planning definition, and no households that did not meet the planning definition. Overall identified need for the period 2016-2038 is for 3 additional plots for households that meet the planning definition; for no additional plots for unknown households that may meet the planning definition; and for no additional plots for households that do not meet the planning definition. A detailed breakdown can be found below.

**Figure 41 – Additional need for Travelling Showpeople households in Basildon 2016-2038**

Status	Total
Meet Planning Definition	<b>3</b>
Unknown	<b>0</b>
Do Not Meet Planning Definition	<b>0</b>

- 3.37 The GTAA identifies a need for **3 additional plots** for households that meet the planning definition, and this is made up of 1 teenage child in need of a plot of their own in the next 5 years, and 2 from new household formation derived from the demographics of the residents.

**Figure 42 – Additional need for Travelling Showpeople households in Basildon that meet the Planning Definition (2016-38)**
