CLOSURE OF ACCOUNTS 2009/10

1 SUMMARY

1.1 This report considers some of the detail supporting the statement of accounts that will be submitted to Council on 29 June 2010, which will allow the Audit Committee to review variances before the accounts are approved.

2 INTRODUCTION

- 2.1 The purpose of this report is to strengthen the scrutiny process for the accounts. There will still be a number of changes to the final outturns as work on closing the accounts is still ongoing.
- 2.2 Any material changes made to the information provided in this report during the closure of accounts and subsequent external audit will be reported to the September meeting of this Committee.

3 CONSIDERATION

- 3.1 The analysis of variations over or under the revised estimate for 2009/10, in excess of £5,000, is shown below. The list of variations excludes capital charges, as these entries are made in the accounts and then reversed out. Therefore there is no effect on the net expenditure of the General Fund. Internal charges between one account and another where the net cost is zero are also excluded.
- 3.2 Salaries have not been shown separately. Salary budgets are managed on a corporate basis, as provision is made for the full costs of approved posts in each cost centre and a centrally estimated vacancy factor. Heads of Service are not allowed to use savings in salary budgets without approval of Senior Management Team and then only for manpower type expenditure. An example would be the employment of an temporary worker to fill for maternity or long term sick cover.
- 3.3 Repairs and maintenance have not been shown separately. Members have previously agreed that although estimates are shown for each premise there is full virement (transfer between estimates) between these codes. This helps in the construction of estimates in that provisions do not have to be made in each premise for the possibility of faults occurring. Senior Management Team requires that these budgets be monitored individually and on a corporate basis.
- 3.4 In the column headed variance, non-bracketed figures are bad news, and bracketed figures are good news. Therefore a non-bracketed figure might either be expenditure in excess of revised budget or income less than revised estimate. Where an item is income the word

income appears in the column headed Item. Overall our year end position is in line with the medium term financial strategy that was set earlier this year.
