

WASTE AND RECYCLING FORWARD PLAN

1 SUMMARY

- 1.1 The purpose of this report is to table the Service Action Plan (Appendix A) that has been produced for the management and monitoring of the implementation of the Waste Management and Recycling Forward Plan (Appendix B) to 2008, and to note the current level of progress of the Forward Plan.

2 INTRODUCTION

- 2.1 Following the Audit Commission Environmental – Waste Management and Open Spaces Inspection of January 2006, a waste management and recycling forward plan to 2008 was produced and presented to a meeting of this Sub-Committee on 27 January 2006.
- 2.2 The purpose of the Forward Plan was to outline the current level of recycling service that was provided and detail future initiatives and specific associated targets for 2006/7 and 2007/8.
- 2.3 The purpose of the Service Action Plan is to assist in the management and monitoring of the implementation of the Forward Plan, and to also monitor the progress towards achieving the specifically targeted and increased levels of recycling. This would be in addition to the regular monitoring that has taken place at previous meetings of this Sub Committee.

3 RECOMMENDATION

- 3.1 It is proposed that the Sub-Committee **RESOLVES** to note the content of the Service Action Plan and following discussions, specifically note the progress made towards achieving the targets set in the Forward Plan.
