

STANDARDS BOARD FOR ENGLAND – NEW REGULATIONS

1 UPDATE

- 1.1 At its last meeting the Standards Committee noted the Council's response to a consultation from Government relating to how Standards Committees and the Standards Board for England should function. New Regulations and Guidance were promised for October 2002 and are now expected early in 2003.
- 1.2 Apparently, "regulations are being drafted by government lawyers but some difficulty is being experienced in formulating proposals to allow Monitoring Officers to deal with issues subject only to a notification procedure to the Standards Board". Any development will be reported as soon as the information is to hand.

2 RECOMMENDATION

- 2.1 It is proposed that the Committee **RESOLVES**
- to consider the implications of the new Regulations once received.
