

**WEST AREA COMMITTEE – 16 OCTOBER 2007  
COMMUNITY FORUM**

Question From	Response	Officer
<p>Mrs H Bloomfield, Rawreth Parish Council</p> <p>What can be done about the parking and obstruction of the highway and footpath in Rawreth Lane over the weekend periods when the Rawreth Recreation Ground is being used by football clubs? The volume of cars parking on the verge is of great concern to the Parish Council and they wish to discuss what alternatives there are for catering with the number of cars needing to park.</p>	<p>A site visit has taken place between the Football Club Manager, Essex Police and Andy Dellar, County Highways. The problem is not straight forward to resolve as there is insufficient car parking space within the ground.</p> <p>Suggest further discussion with all concerned with regard to extending facilities within the ground and the effects on the highway.</p>	<p>L Harvey District Engineer, County Highways 01268 297540</p>

**Please note:** written responses have been provided to questions received up to seven working days prior to the meeting.
